1-1-2. Private Sector Development

Program	Special Course for Development Policy	
Degree(s)	a. Master of Economics b. Master of International Studies	
Credit and duration	Minimum 30 credits, 2 years	
Address	2-1 Rokkodai, Nada-ku, Kobe, Hyogo 657-8501 Japan	

Features of University (<http://www.kobe-u.ac.jp/en/>)

Kobe University's inception can be traced back to March 1902 with the establishment of Kobe Higher Commercial School. In April 1929, the School was renamed Kobe University of Commerce, and in October 1944, it became Kobe University of Economics. In May 1949, Kobe University of Economics and other colleges and schools in Kobe were brought together to form Kobe University. Currently, Kobe University is made up of 10 faculties, 15 graduate schools, one research institute, and many research centers. It is known as a comprehensive university both at home and abroad for its frequent academic and research exchanges with overseas universities and research institutions, and for hosting over 1,400 international students from 90+ countries and regions. Many of our global alumni are active in a vast array of fields in Japan and their own countries.

Kobe University has always been committed to the creation of knowledge in a broad range of fields, from Humanities, Social Sciences, and Natural Sciences to Bio-Medical Sciences. The intellectual curiosity and the inquiring mind of each faculty member have continually advanced the level of researches since the foundation. In the area of education, faculty and administrative staff members have united their efforts to collaborate on ways to prepare a better learning environment from the students' viewpoint. In the course of our quest for academic excellence, many of our research areas have gained considerable recognition worldwide as the "core research areas" of Kobe University, and the number is increasing on an ongoing basis. Most of them are on the path of becoming a "center of excellence." Kobe University extends an invitation to all students, researchers, public and private sectors, as well as to all persons and organizations interested in studying at or collaborating with the University.

Features of Graduate School (<http://www.gsics.kobe-u.ac.jp/index.html>)

The Graduate School of International Cooperation Studies (GSICS) was established in 1992 and offers four academic programs: International Studies, Development and Economics, International Law / Law and Development, and Politics and Area Studies, providing many courses taught in English. Currently, international students from over twenty-five countries account for nearly fifty percent of our students.

The faculty members of GSICS are experts in international cooperation, development economics, international law, political science, international relations, and education development from Japan and abroad. We offer a flexible curriculum in which students can acquire a wide range of skills and knowledge. In addition to our courses, we also offer joint courses with other graduate schools specializing in economics, law, business administration, education, engineering, and urban studies. Accordingly, our academic programs are truly multidisciplinary.

One of our aims is to train graduate students who are interested in pursuing international careers. Academic activities at GSICS, therefore, encourage our students to acquire expertise and multidisciplinary knowledge. As one of these activities, GSICS often convenes international conferences and symposia and invites leading specialists from all over the world to deliver special lectures and seminars. We also encourage our students to participate in internships and placements in domestic and international organizations, and recognize the importance of these activities by awarding credits for them, as well as partially subsidizing students' travel costs. Many students have so far taken part in internships international and bilateral organizations including OECD, UNICEF, World Bank, Asia Development Bank, Inter-American Development Bank, UNESCO, and Japan International Cooperation Agency (JICA). We welcome international students who wish to join our vibrant academic community.

Features of the Program (http://www.gsics.kobe-u.ac.jp/en/programs/master_course.html)

To make our unique multidisciplinary academic environment available to international students, particularly JDS Fellows, GSICS has developed a Master's program in English, namely the Special Course for Development Policy, in which all courses are taught in English.

While its curriculum is multidisciplinary, this program also emphasizes an interdisciplinary approach. It thus provides a series of interdisciplinary seminars encompassing economic development, political development, international law, international relations, and education development. GSICS expects the graduates of this program to become experts and professionals in their fields and contribute to the development of their countries.

In this program, JDS Fellows will receive the following benefits and services:

- English correction service provided by native English lecturers
- Academic English writing classes
- Pre-enrollment training (Math, Statistics, etc.)
- Assignment of a tutor who helps students settle into university life and study (including assistance to open a bank account, to register with local authorities, etc.)
- Compulsory medical checkup
- School trip to some Japanese cities (Tokyo, Nagoya, etc.)

Necessary Curriculum to Obtain the Degrees

The standard duration of study is two years. Students are required to earn at least 30 credits, including a total of 8 credits from Special Seminars, complete a master's thesis in English, and pass a viva.

JDS Fellows from Cambodia who successfully complete the requirements will be granted one of the following degrees: Master of Economics or Master of International Studies.

The following lectures are in English, and JDS Fellows will receive 2 credits for each lecture per semester.

(Reference as of academic year 2019)

3 Oct.	Entrance Ceremony	6 Apr.	Beginning of Spring Semester
4 Oct.	Beginning of Fall Semester	8 Aug. ~30 Sep.	Summer Vacation
25 Dec. ~7 Jan.	Winter Vacation	Late Aug.	Final Examination for Master Thesis
31 Mar.	End of Fall Semester	Late Sep.	Completion Ceremony
		30 Sep.	End of Spring Semester

Facilities

■ Libraries

Kobe University Library consists of a General Library and nine branch libraries. There are about 3.7 million bibliographical materials and approximately 35,200 titles of electronic journals in the collection. The libraries also receive about 4,600 different magazines and approximately 31,000 books annually.

Kobe University students, including JDS Fellows, are entitled to use all the libraries.

※Kobe University Libraries;

http://www.kobe-u.ac.jp/en/campuslife/campus_guide/library.html

■ Information Science and Technology Center

Information Science and Technology Center operates a computer system for education and research, campus networks and so on. There are about 1,300 iMac computers located in the center's branch office, classrooms on Rokkodai, Myodani, and Fukae campuses, and all libraries. These are available for general and educational use. Wi-Fi access is also available in almost all buildings on campus.

■ Medical Center for Student Health

Medical Center for Student Health is open to students for medical examination, first aid, and consultation of physical and/or mental health problems. In case of emergency, students can use the emergency phone lines on campus to call the Medical Center, 119 (ambulance), or campus security service.

■ Kobe University's dormitory:

■Kobe University International Residence; 109 single rooms, 8 married couple rooms, and 4 family rooms

<http://www.kobe-u.ac.jp/en/campuslife/housing/accommodation.html>

Registration: January and July if there are vacancies.

Length of tenancy: maximum 1 year (for single room)

■ Residences managed by private organizations for international students:

■Hyogo International Students House; 159 single rooms and 38 married couple rooms

<http://www.kobe-u.ac.jp/en/campuslife/housing/dormitory.html>

Registration: every month if there are vacancies

Length of tenancy: TBA

*Note: Rooms are not guaranteed due to the limited number of rooms available in these residences.

Message for Applicants

Kobe GSICS provides a very comprehensive and challenging program in economics. Graduate students in the program are able to increase theoretical and applicable knowledge/skills for economic policymaking and monitoring evaluation. Students are also able to acquire the analytical skills to tackle issues related to sustainable economic growth, good governance, agricultural/rural development, job creation, SME (Small & Medium Enterprise), investment policy, capacity building, human resource development, etc. Many of our graduates are currently working for universities and international organizations (e.g., UNESCO, UNICEF, UNDP, FAO, OECD, World Bank). In addition, high/mid-level government officials from Asia, Africa, Middle-East, and Latin America participate in economics training at Kobe GSICS to enhance their knowledge and skills. In the past several years, more than dozens of students from Cambodia have got a Master's degree at our program.
