

OVERVIEW
2023-24

The logo for the International University of Japan (IUJ) features the letters 'IUJ' in a bold, blue, sans-serif font. The 'I' is a solid dark blue, while the 'U' and 'J' have a gradient from dark blue at the top to a lighter cyan at the bottom.

INTERNATIONAL
UNIVERSITY OF
JAPAN

Where the World Cooperates

IUJ, where the world gathers, is a place where connections between individuals can be built, not only through education but also by living together and learning each other's cultures and values through various campus events. The strong bonds formed with classmates at IUJ will assist your career and life far beyond your graduation.

In May 2023, our students sang "Believe" with local people at the International Festival of IUJ.

International Social Entrepreneurship Program - Master of Social Entrepreneurship

#1 | Life in the Heart of Asia

La Ode Rendrian Maharsya (Indonesia)

CISION PR Newswire Asia

IRP, Class of 2013

Living in Urusa, and studying at IUJ in particular, might be the most memorable two years in my life. Not only did I have a chance to study from the prominent lecturers in the IRP Program, but I was also able to have countryside experiences and build friendships with the local people.

Urusa and its surrounding mountains offer the *Sakura* beauty of Spring, the romantic 3 colors Koyo (紅葉) of Autumn, and the magnificent land of snow (*Yukiguni*) in Winter. For potential IUJ students, you will regret it if you don't take some time to experience these wonders. I made friends with a local farmer, who eventually became a business partner, and we are still friends today.

I was lucky enough to be a recipient of the Niigata International Association (NIA) Scholarship. However, I also needed to take on part-time jobs to cover my living costs. Nonetheless, I eventually realized that this was a blessing in disguise!

During my time at IUJ, I participated in a variety of extracurricular and off-campus programs. These included being a guest teacher at nearby schools, serving as a member of the Graduate Students Organization (GSO), introducing my traditional culture to others, and assisting in local festivals. Not only did these activities contribute to my financial stability, but also enabled me to balance my academic *and* non-academic life. This helped me to practice the Japanese language and learn about Japanese culture, which has proven useful for my professional career.

IUJ's Student Services Office supports every student in their search for fulfilling employment : from getting an internship to landing their dream job. IUJ helped me to find a very well paid summer project in a Japanese logistics company in my hometown (Jakarta) at the end of my first year of study. With my master's degree and my much improved Japanese skills, it didn't take long for me to find work. In fact, right after I graduated, I was accepted at one of Japan's largest trading companies! And the rest is history!

#2 | Global Experience in Japan

My IUJ experience from 2019 to 2021 taught me to know myself better and to use this knowledge to leverage my strengths and grasp my weaknesses, enabling me to improve one step at a time. In IUJ, students are exposed to contrasting cultures and upbringing, sometimes even within their national communities. Such exposure helps one to re-evaluate their thought processes and gain independence. Knowing your values and how you operate is fundamental to confidence building so that, no matter where you go, you can stay true to yourself while adding value to any community.

IUJ's 2-year MBA program offers a comfortable and productive environment to learn to interact with people and listen to others as part of the communication process. The program's group-centric approach lets you simulate real-life corporate discussions especially when diverse groups are involved in a project. Developing strong communication skills can help you in your career as you understand that perfect grammar and language are not the most important factors when conveying a message. You can have the brightest idea in a group, but if you do not know how to share and make the people around you understand your vision, it will be difficult to shine. Engage yourself in open conversations, learn from others, and embrace the chaos different perspectives offer. It is much better and easier to hone your conflict management skills in an academic environment when key performance indicators (KPIs) and corporate targets do not add to the pressure. Furthermore, I have learned while doing my graduation research report that, when multicultural groups (as compared to homogenous groups) first work together, they tend to be inefficient. This is due to members' conflicting management and communication styles. However, when these hurdles are overcome, improved productivity is achieved.

Whether they want to stay in Japan or another country, I believe IUJ students can position the university's multicultural experience to their advantage as more corporate strategies are headed toward diversity and inclusion. For those who see themselves staying in Japan, it is definitely beneficial to study the language as much as you can. Most Japanese companies are still in the early stages of this global change, so it will be less frustrating if you can equip yourself with all the tools on offer to students at IUJ.

Marquez, Veronica Masilongan

MBA, Class of 2021

IRP trains individuals to become outstanding practitioners and scholars to deal with global challenges

The International Relations Program (IRP) offers two 2-year MA degrees, one in International Relations (IR), and the other in Political Science (PS).

IR students, taking the core courses for the IR degree, acquire the basic concepts and theories of international relations, empirical knowledge, and analytical skills. All of these are necessary to understand the diverse aspects of international relations. PS students take core courses for the PS degree, which cover PS topics such as comparative politics, political institutions, political theory, and methodology, with a strong focus on methodology. PS students thereby acquire sufficient methodological skills to analyze diverse issues in political science.

Additionally, the IRP offers various elective courses. IR degree students can choose courses to focus on particular thematic or regional issues to analyze and understand dynamic, complex contemporary international affairs. Those courses seek to provide more advanced, specific, and up-to-date studies corresponding with the multi-disciplinary nature of the international relations field. PS degree students can choose courses in international relations and international political economy, thereby further broadening their knowledge in political science.

In general, IRP students are expected to develop the capacity to analyze diverse global challenges and propose policy solutions for them, whether from an IR perspective or a PS perspective.

Student Profile

Easwaran, Jyothika (India)

Pre-IUJ	<i>Bachelor of Arts in History from Stella Maris College, Chennai, India</i>
Program Feature	<i>The program has challenged me to think critically, helped me explore my research interests, and changed the way I approach and/or understand issues that affect the international community.</i>
Research Topic	<i>Multilateral security arrangements in the Indo-Pacific region, specifically the Quadrilateral Security Dialogue</i>
Recommended Course	<i>International Politics (Prof. Maung Aung Myoe)</i> <i>The course is an excellent way to become acquainted with the fundamental theories of International Relations and how they offer different perspectives to understanding IR-related concepts.</i>
Post-IUJ	<i>To remain in academia, hopefully to pursue a PhD in International Relations</i>

Students develop skills and knowledge for making economic/public policy as professionals

The International Development Program (IDP) offers two 2-year MA degrees: International Development (ID) and Economics (ECO). Students are required to complete coursework (at least 40 credits) and write a thesis or research report using a quantitative approach.

The ID track offers various development-related courses in economics, regional science, and related fields. Throughout their studies, students learn how to evaluate current policies and design more effective ones to encourage economic growth and social development in developing countries. The ECO track emphasizes modern economic theories and their applications. Students learn applied macroeconomics, comprising fiscal policy and international finance, as well as empirical microeconomics including labor, health, and environmental issues to understand and analyze current issues. Both degree tracks aim to equip students with advanced knowledge and skills so that they will tackle and overcome the problems they are facing as new leaders in both the public and private sectors.

The ECO also offers the Macroeconomic-Policy Program (MPP), a special master's program established in cooperation with the IMF (International Monetary Fund). The MPP is designed to provide professionals from central banks, finance ministries, international organizations, and private financial institutions with academic training in the field of macroeconomics.

Curriculum

NOTE : The curriculum may be subject to change.

1st year			2nd year			Degree Requirements	
Fall	Winter	Spring	Fall	Winter	Spring		
Core : 16 credits (ID) / 14 credits (Eco)							MA in International Development or MA in Economics 40 credits & Thesis / 44 credits & Research Report
Elective : 18 (22) credits (ID) / 20 (24) credits (Eco)							
			Seminar : 6 credits

Student Profile

Erkhembaatar, Gongor (Mongolia)

Pre-IUJ	<i>Senior supervisor in Supervision department of the Central Bank of Mongolia</i>
Program Feature	<i>Students acquire theoretical knowledge and analytical skills in research and analysis of economic and social decision-making issues. The program allows students to choose from 2 areas : International Development and Economics.</i>
Research Topic	<i>Applying micro and macro stress tests in bank financial reports</i>
Recommended Course	<i>Macroeconomics I (Associate Professor Chien-Yu Huang)</i> <i>The course covers both short and long-run macroeconomic topics which are useful for analyzing economic events and public policy models.</i>
Post-IUJ	<i>I will return to my workplace in Mongolia and contribute to the activities of regulation in the banking sector.</i>

PMPP is designed for future leaders of public and non-profit organizations in the era of globalization and digitalization

The Public Management and Policy Analysis Program (PMPP) offers 2-year master's degrees : MA in Public Management (PM) and MA in Public Policy (PP). Students are required to complete coursework and write either a thesis or research report that can be chosen from a wide range of managerial or policy issues.

The PMPP provides students with the knowledge and skills that are necessary to be good managers in public and non-profit organizations. Basic courses include Introduction to Policy Analysis, Public Policy Process, Statistical Methods, Econometrics, and Microeconomics I. The PM additionally requires Managing Public Organizations, Public Administration, and Public Finance and Budgeting to learn better ways to improve public service delivery, while students in the PP track must take Cost Benefit Analysis, Introduction to Policy Modeling, and Policy Evaluation to understand policy-making and implementation.

Curriculum

NOTE : The curriculum may be subject to change.

1st year			2nd year			Degree Requirements
Fall	Winter	Spring	Fall	Winter	Spring	MA in Public Management or MA in Public Policy 40 credits & Thesis / 44 credits & Research Report
Core : 16 credits

PMPP Core						
- (Applied) Econometrics - Cost Benefit Analysis (PP) - Introduction to Policy Analysis - Introduction to Policy Modeling (PP)		- Managing Public Organizations (PM) - Microeconomics I : Price Theory - Policy Evaluation (PP) - Public Administration (PM)			- Public Finance and Budgeting (PM) - Public Policy Process - Statistical Methods	
Elective (PMPP common courses)						
- Asian Perspective of Public Governance - Environmental Policy and Disaster Management - Industrial Organization and Policy Analysis - Information Policy and Management		- Japanese Government and Politics - Leadership in the Public Policy - Local Government and Public Service - Macroeconomics I : Income Theory - Mathematics for Economics and Management - Performance Management - Political Institutions and Governance			- Public Human Resource Management - Public Organization Theory - Qualitative Methods - Research Methods - Survey Data Analysis	

Student Profile

Pham Khanh Huyen (Viet Nam)

Pre-IUJ	<i>Education Quality Management Official, Ministry of Education and Training, Viet Nam</i>
Program Feature	<i>The PMPP equips students with essential skills and experiences in public policy and administration. Public Management and Public Policy tracks help students detect and solve practical issues in the public sector.</i>
Research Topic	<i>Enhancing public services quality in the education field in Viet Nam.</i>
Recommended Course	<i>Public Policy Process (Prof. Seunghoo Lim)</i> <i>The Professor's profound knowledge combined with logical ways of delivery makes the process of understanding sophisticated concepts enjoyable and engrossing.</i>
Post-IUJ	<i>I would like to contribute to the education quality enhancement procedure.</i>

A one-year mid-career program designed for future governmental leaders in collaboration with JICA

The International Public Policy Program is a one-year mid-career program, designed for diplomats and government officials of countries in Asia, the Pacific, and around the world. It is a program that has been developed through close consultation between IUJ and the Japan International Cooperation Agency (JICA).

Students in this program will choose their concentration areas (either "International Affairs" or "Public Policy"), depending on their professional backgrounds and career goals, and study various disciplinary-related courses in their respective fields. They will also be able to take a variety of issue-oriented courses as electives, choosing from a wide range of offerings at IUJ. In summer, toward the end of their one-year study program, students will participate in intensive capstone courses, some of which will be delivered by specially invited experts in their field. Students will be given opportunities to discuss global issues, such as the changing international political and economic landscape and global environmental challenges.

Thus, the program will not only encourage students to look back on and systematize their professional experiences, but also enable students to incorporate these experiences into a body of knowledge with which they can further their professional capabilities. The program will also help the students to develop their capabilities to think about and discuss various international public policy issues from long-term, broad, and diverse perspectives.

Curriculum

NOTE : The curriculum may be subject to change.

Fall	Winter	Spring	Summer	Degree Requirements
Elective : 30 credits (Basic (10) + Other Elective (20))				Master of International Public Policy 32 credits & Research Report
Seminar : 2 credits				
Elective				
Basic Courses				
<ul style="list-style-type: none"> - Human Rights and Global Justice : Cultures, Gender, and Equality - International Organizations - International Politics - Introduction to Policy Analysis - Microeconomics I : Price theory - Public Policy Process - Security and Strategy : National and International - Statistical Methods 		<ul style="list-style-type: none"> < Summer Capstone Courses > - Geopolitics in the Contemporary World - Future of Capitalism - Understanding China 		
International Affairs			Public Policy

Student Profile

Makisi, Taniela Taulanga (Tonga)

Pre-IUJ Program Feature

Principal Human Resource Officer, HRM Division, Public Service Commission - Tonga
The program has two concentrations, International Affairs and Public Policy. Both programs have their own advantages, especially for civil servants. It will not only enhance your existing knowledge and skills, but it will transform you personally and professionally with the guidance of incredible and experienced professors.

Research Topic

Employee perceptions towards the implementation of the Classification of Positions Framework within the Tonga Public Service

Recommended Course

Leadership in the Public Sector (Prof. Jiwon Jung)

As future leaders, this course will elevate your leadership style and skills to make a difference in managing public organizations and be able to apply a public service perspective in policy debates and policy issues.

Post-IUJ

Upon completion of studies, I will return to my post at the Public Service Commission - Tonga.

The PhD Program is dedicated to developing high-level research abilities for a wide range of contemporary international issues through rigorous academic training. It also helps students acquire a long-term vision of a rapidly changing world with diverse perspectives in global contexts. Targeting future leaders in international organizations, public organizations and/or governments, the PhD Program aims at fostering high-level professionals who play an important role in the international arena with theoretical, analytical, and practical abilities as well as advance researchers to be able to operate effectively in an international society. All courses are conducted in English. The PhD program, according to specialized research areas, consists of 3 clusters that are extensions of our 3 existing master's programs in GSIR, i.e., "International Relations Program," "International Development Program", and "Public Management and Policy Analysis Program."

International Relations Cluster (PhD in International Relations)	Economics Cluster (PhD in Economics)	Public Management Cluster (PhD in Public Management)
Fosters researchers with specialized knowledge and high-level research abilities in the increasingly complex field of International Relations, including security, and provides those professionals with the above-mentioned knowledge and abilities which can be applied to relevant jobs (such as security policy formulation) and be implemented in such places as international organizations and government bodies.	Fosters researchers with specialized knowledge and high-level research abilities in Economics including quantitative and statistical methods, and provides those professionals with the above-mentioned knowledge and abilities which can be applied to relevant jobs (such as economic development or economic policy formulation) in such places as international organizations and government bodies.	Fosters researchers with specialized knowledge and high-level research abilities in Public Management, and provides those professionals with the above-mentioned knowledge and abilities which can be applied to relevant jobs (such as effective management) in such places as international organizations and government bodies.

Curriculum & Degree Requirements

The PhD curriculum consists of Core Required Courses and PhD Dissertation Advanced Seminars. The Courseworks is designed to give students high level specialized and scholastic knowledge and research capability required for PhD candidates. The PhD Dissertation Advanced Seminars are designed to give students guidance for writing a PhD dissertation.

① Core Required Courses : 6 credits (3 courses)		
International Relations Cluster	Economics Cluster	Public Management Cluster
<ul style="list-style-type: none"> - Advanced Studies in Theories in International Relations (Fall, 1st year) - Advanced Studies in International Political Economy (Winter, 1st year) - Advanced Studies in Human Rights and Global Justice (Spring, 1st Year) 	<ul style="list-style-type: none"> - Advanced Macroeconomics (Fall, 1st year) - Advanced Microeconomics (Winter, 1st year) - Advanced Econometrics (Spring, 1st year) 	<ul style="list-style-type: none"> - Advanced Politics and Governance (Fall, 1st year) - Advanced Public Management (Winter, 1st year) - Advanced Public Policy Process (Spring, 1st year)
② PhD Dissertation Advanced Seminars : 9 credits (3 courses)		
- PhD Dissertation Advanced Seminar I (1 st full year)	- PhD Dissertation Advanced Seminar II (2 nd full year)	- PhD Dissertation Advanced Seminar III (3 rd full year)
③ Comprehensive Examination		
To pass the PhD candidate examination conducted at the end of 1 st year. Candidates will be given a second chance during the 2 nd year to take this examination if they fail the examination in the 1 st year.		
④ Final Examination		
To pass the evaluation and the final examination of their PhD dissertation. The PhD dissertation is, in principle, comprised of three academic papers, one of which must be accepted by a refereed academic journal.		

* See our website (https://www.iuj.ac.jp/phd1/phd/index_en.html) for details of the 3-year schedule

Student Profile

Ballo, Bocar Dit Binke (Mali)

Pre-IUJ	<i>Agent, Ministry of Foreign Affairs, Department of Asia-Oceania , Mali</i>
Program Feature	<i>IUJ's Ph.D. in International Relations program offers a high-level understanding of theories and practices, developing research capability and analytical skills, interdisciplinary approaches, and opportunities to present their research at prestigious conferences and publish their findings.</i>
Research Topic	<i>The Impact of Governance on Global Economic Integration</i>
Post-IUJ	<i>I am eager to continue honing my diplomatic skills and furthering my career in diplomacy within the Ministry of Foreign Affairs.</i>

Leverage emerging markets for global advantage

Since its founding as the first US-style business school in Japan, IUJ's MBA program has bridged management thinking between international and Japanese business communities. It has helped international students access Japanese job markets and Japanese companies expand their business to global markets. Leading the fast-changing environment, it has developed the latest rigorous ideas and disseminated them widely. As a result, the program has earned much recognitions from outside accreditors like *The Economist's* "Top 100 Business Schools" and AACSB International, not to mention praise from its stakeholders.

The curriculum emphasizes 'Leveraging Emerging Markets for Global Advantage'. It focuses on the knowledge, skills, and mindset required to take the best advantage of the world's fastest-growing economies. Updated program contents have added a new critical element that exposes students to the impact of digital transformation and the 4th industrial revolution to better handle technological challenges. The program also integrates socially responsible business leadership into the curriculum and supports sustainable growth and development.

The first year of the MBA Program is devoted to foundation building. Students tackle the essentials of management with an emphasis on global leadership and emerging markets through case studies that regularly include cases on business in Asia, Africa, and Latin America. In addition, with case-based group discussions, students experience cross-culture communication and global team leadership. Students begin to customize their courses for their career goals from the Spring term in the first year and choose one or more specialization paths. They are also encouraged to take part in the solid Japanese language program offered by our dedicated faculty to blend smoothly into Japanese corporate culture and enhance their employability.

Curriculum

1 st year			2 nd year			Degree Requirements Master of Business Administration 40 credits & Thesis / 44 credits & Research Report
Fall	Winter	Spring	Fall	Winter	Spring	
Core : 19 credits						
Elective : 15 (19) credits						
Seminar : 6 credits

Student Profile

Pramodhya Bandara Dissanayake (Sri Lanka)

Pre-IUJ	<i>Sudeesa, Project Manager - Community Development</i>
Program Feature	<i>IUJ's MBA is not just another MBA. As a student I have gained a true international exposure by studying with people from 70 different countries. The curriculum itself is built to create future leaders.</i>
Research Topic	<i>How entrepreneurship works towards promoting inclusive and sustainable economic growth, employment and ethical work in the developing countries</i>
Recommended Course	<i>Strategic Management (Prof. Gaku Funabashi)</i> <i>This course encourages students to think strategically in order to deal with real business world scenarios.</i>
Post-IUJ	<i>I would like to become an entrepreneur.</i>

Educating innovative and responsible leaders equipped with a global network

The COVID Pandemic and rapid digitalization of business processes are inducing a paradigm shift in the way we conduct business. Corporations are placing increasing emphasis on environmental, social, and governance (ESG) issues. The post-COVID-19 business environment requires managers to be cognizant of ESG issues and integrate them into business performance. IUJ's IMBA program prepares future leaders to meet these new challenges.

The 12-month IMBA program curriculum is compact, rigorous, and demanding. We believe in building core competencies that enable managers to dive deeply into innovative business solutions for their business. At IUJ, cases are used to better prepare managers to apply what they have learned to real business situations. The cases focus on issues in both advanced economies and emerging markets in Asia, Africa, and Latin America. At IUJ, students from diverse nationalities work, play, and learn together on a daily basis. Summer capstone courses are the final wrap-up for the IMBA program.

An IUJ graduate gains the unique benefit of establishing a global network with classmates hailing from over 70 countries. Our alumni services allow our graduates to access our strong IUJ alumni network and to participate in seminar series focused on current trending topics. Join our IUJ family and immerse yourself in a fun place where the world gathers to acquire new professional skills and develop life-long relationships.

- Research Topic** *Turnover rate and working conditions in the Japanese food industry*
- Recommended Course** *Japanese Style Management and Corporate Governance (Prof. Hyunkoo Lee)*
This course provides opportunities to learn about unique Japanese corporate culture, such as lifetime employment.
- Post-IUJ** *I would like to contribute to local communities through international business.*

Lead a global business in the digital society

Advances in digital technologies have drastically changed almost every aspect of our society, including industrial structure, business strategies, jobs, and work styles. Organizations can no longer delay their digital transformations. The digital future is here right now. It is estimated that nearly 40% of all businesses may disappear in the next ten years if they do not accommodate new digital technologies. At the same time, this period provides a rare opportunity for small-to medium-sized companies to narrow the gap with larger competitors.

After nearly 20 years of offering its globally top-ranked e-Business Management Program, GSIM launched a new Digital Transformation Program (DXP) in 2021. It nurtures future leaders who can lead a global business in a digital society by integrating digital technologies and management skills. Instructors in the DXP are faculties familiar with cutting-edge digital technologies, invited industrial practitioners, and guest speakers from across the world. The pedagogy includes case methods, simulations, and team projects. Our graduates gain hands-on experience with new digital technologies (e.g., data science, Big Data, AI, blockchain, AI, cloud computing, cybersecurity, etc.). They also learn digital business models, entrepreneurship, digital strategies, organizational design for digital transformation, FinTech, digital marketing, and more.

There is high demand for new hires with knowledge of digital transformation. Career paths for graduates include managers in IT departments, managers in charge of implementing digital transformations, IT specialists who consult about technology projects, and entrepreneurs who start tech businesses.

Learning Universal Logic in Development, grounded in the Japanese experience

The Japan-Global Development Program (JGDP) is a program jointly implemented and managed by the Japan International Cooperation Agency (JICA) and the International University of Japan as part of the JICA Development Studies Program (JICA-DSP). It aims to provide an opportunity to learn universal development and growth logic across the fields of politics, economics, and management, using Japan's experiences in economic development and corporate growth as basic case materials. The JGDP is an international human resource development program introduced by IUJ as the first joint program between GSIR and GSIM. Its outstanding characteristics are:

1. International students learn logic and lessons in development from Japan's experiences (both successes and failures) and acquire knowledge and skills to consider developing strategies for their homelands.
2. Japanese students develop the ability to explain the logic of Japanese development in English by learning about Japan's experiences. With that skill, they are able to communicate their knowledge with the world.
3. Students who will work in the international arena in the future learn the universal logic of economic development and corporate growth using Japan's experiences as case materials.

The JGDP is not intended to be a program that trains Japanese specialists. The logic and lessons from Japan's experiences will help future leaders from abroad as they think about strategies for development back home. Thus, the logic behind Japan's experiences can be applied to various global scenarios. That is why we call this program the Japan-Global Development Program. It enables Japanese students to explain their country's development logically when they go abroad and helps them play an active role as global leaders.

Depending on the students' wishes, they can select an area of concentration from those presented in the following table and choose the school to which they want to belong. As such, those who choose "Foreign Policy", "Economic Policy", "Development Policy", or "Public Management" are part of GSIR, and those who choose "Management" become a member of GSIM.

Degrees awarded for the respective concentrations :

Concentration (GSIR)	Degree Name	Concentration (GSIM)	Degree Name
Foreign Policy	MA in International Relations	Management	Master of Business Administration
Economic Policy	MA in Economics		
Development Policy	MA in International Development		
Public Management	MA in Public Management		

Curriculum

All JGDP courses emphasize both theoretical background and international comparison.

JGDP courses offered by GSIR cover various fields, from the international political and economic environment after Japan's Meiji Restoration to Japan's education system, the characteristics of Japan's postwar economic growth, Japan's foreign policy, politics, national security policy, and foreign assistance policy.

JGDP courses offered by GSIM provide education on Japanese style management, corporate finance, and Japan's financial system, Japan's major industries, human resource practices, manufacturing management, business leaders, and development of SMEs.

Degree Requirements

The requirements for completing the JGDP are 1) two years of enrollment, 2) acquisition of at least 40 credits, 3) submission of a master's thesis or research report after receiving the necessary research guidance, and 4) passing the thesis/research report evaluation and final examination.

JGDP Courses

NOTE : The curriculum may be subject to change.

Courses offered by GSIR	Courses offered by GSIM
<ul style="list-style-type: none"> - International Relations and Foreign Policy of Japan - Japan's Education System - Japanese Development Cooperation : Implementation and Practice - Japanese Government and Politics - Japanese International Development Cooperation - Japanese National Security Policy - Modern Japan in the World - Politico-economic History of Japan's Modernization - Postwar Japanese Economic Statecraft - Postwar Japanese Politics 	<ul style="list-style-type: none"> - Agriculture Business and Policy in Japan - Business Leaders in Japan - Japan's Major Industries and Human Resource Practices - Japanese Corporate Finance and Financial System - Japanese Style Management and Corporate Governance - <i>Monozukuri</i> (Manufacturing) Management in Japan - Primer for Industrial Development Policy - Small to Medium-sized Firms in Japan

(Besides the JGDP courses listed above, JGDP students are required to take courses offered by the master's programs of their concentrations.)

Japan Focus

When students belonging to other master's programs obtain 8 or more credits of JGDP courses, they can receive a special certificate of "Japan Focus."

Student Profile

Zarbo, Alessandro (Italy)

Pre-IUJ	<i>Bachelor's Degree at University of Trieste in International and Diplomatic Sciences</i>
Program Feature	<i>The JGDP not only provides all the knowledge of a normal MBA but also deepens the analysis about Japan and its economic success, preparing students with strong understanding and skills to face any possible situation in the business world all over the globe.</i>
Research Topic	<i>Japanese corporate culture and the difficulties of F1: the Toyota case</i>
Recommended Course	<i>Business Leaders in Japan (Prof. Takeo Kikkawa)</i> <i>Professor's knowledge and stories of the successful leaders analyzed in the course offer great inspiration to students who aim to pursue business success.</i>
Post-IUJ	<i>Pursue a career in motorsport with a goal of opening a company in Japan</i>

Double Degree Program

IUJ's Double Degree Program (DDP) is an educational program in which students can obtain two degrees (one from IUJ and one from a partner university) upon their graduation from both universities. In principle, the program's structure is based on the existing curriculum of both IUJ and partner universities.

There are already many graduates who have completed this program, and we strongly hope that this program will contribute to producing global leaders and to promoting peace and stability throughout the world for future generations.

Student Voice

Dashnyam, Bayaraa
 Double degree program with National University of Mongolia (Mongolia)
 MBA, Class of 2023

The benefit of this program is that you can complete one year of study in your home country and one year at IUJ, earning a dual degree from both institutions upon graduation. By studying at IUJ, you will not only learn about Japanese culture, but you will also have the opportunity to meet new people from different countries and experience diverse cultures. This is a great opportunity to build an international network. This one-year period promises to be an amazing year that will challenge you, develop you, allow you to invest heavily in your future career development, and create memories you will never forget. I love IUJ!

Rendy Tommy Indrawan
 Double degree program with Universitas Gadjah Mada (Indonesia)
 MBA, Class of 2022

My experience while studying at IUJ was excellent : I learned to adapt to different conditions and learning environments. IUJ is a very conducive place to study. The surrounding nature is so beautiful and will give you a beautiful memory in life. Thank you IUJ!

MBA, Class of 2023
ESADE Business School (Spain)

My experience in ESADE brought me many insights and opportunities for growth. Barcelona, the second city in Spain, is the cultural center of Catalonia and is also one of the industrial centers of Europe. I was able to obtain a great deal of motivation and concentrate on my studies. This was assisted through-academic and non-academic activities with my excellent colleagues in ESADE, one of the top business schools in Europe.

The English language program offers a variety of English language courses throughout the year, even after enrolment, to help students acquire English language skills for their academic and post-graduation career development.

Summer Intensive English Program (IEP)

IUJ's Intensive English Program (IEP) provides intermediate-to advanced-level English training for students who intend to enter IUJ's graduate programs and for professionals who wish to immerse themselves in English in preparation for work assignments that involve substantial international English communication. We offer intensive instruction in developing effective Academic study strategies in an English-only environment and help to prepare students for their course work beginning in the fall term. At the same time, students participate in extracurricular activities for social and cross - cultural communication purposes.

Academic English

IUJ students can take a variety of English - language courses as a part of their graduate studies in IUJ's degree programs. The Academic English courses provide first-year students with the necessary foundation in Academic English to succeed in their graduate studies. Second-year students can take English for Thesis Writing and English for Research Writing courses to prepare for writing their MA thesis or Research Report.

Finally, both first- and second-year students can take the Academic English Literacy course to improve their debate and written argumentation skills.

Business English

The English for Professional Communication courses are offered to IUJ students interested in developing their written (email, memo, and report writing) and spoken (interviewing, meeting management, negotiation) business English skills.

Basic and Elementary Japanese: helps students acquire basic communication skills in Japanese. The Intermediate and Upper-Intermediate course : focuses on mastery of the application of basic Japanese skills. The Advanced course covers the ability to explain and discuss social issues and topics related to learner's interests. An annual Japanese Presentation Exhibition is also held where students can demonstrate their achievements in Japanese language acquisition. The JLP also offers noncredit courses such as Business Japanese, where participants learn honorifics and manners needed for Japanese business situations they are likely to encounter in coming years.

Japanese Program

Goals of each course

Course	JLPT Level	# of kanji learned	Oral Proficiency Interview
Elementary	N4-N5	300	Mid-novice to Low-intermediate
Intermediate	N3	600	High-intermediate
Upper-Intermediate	N2-N3	900	Low-advanced
Advanced	N1-N2	1000-	Mid- to High- advanced

Intensive Japanese Program

Intensive Japanese Programs for zero beginners are held for students sponsored by the International Monetary Fund (IMF) and IUJ students. The programs are 4 to 9 days in length, and help learners acquire what is necessary for their daily lives in Japan such as greetings, self-introductions, phrases for shopping, and phonetic syllables, i.e., *hiragana* and *katakana*.

Center for Global Communications (GLOCOM)

Since its establishment in 1991, GLOCOM has been maintaining the focus on interdisciplinary Japanese studies with the research into the issues of information society based on the development and dissemination of Information-Communication Technology (ICT) at the center of its activities.

GLOCOM constantly aims at being a leading institute examining new social trends, acting as an intellectual hub for industry, government, academic, and civilian organizations.

Links to Japanese Entities

Thanks to IUJ's strong links to the business sector in Japan, our campus enjoys interactions with a diverse group of companies. This includes guest speakers in classes, Senior Executive Seminars, student coursework involving corporate-sponsored projects, special project-based internships, student sponsorship for our degree programs through scholarships, faculty research, and consulting relationships, and class visits to corporate offices and plant sites.

Global Partnership Program

IUJ is proud to have a "Global Partnership Program" with major corporations in Japan, having signed Memoranda of Agreement with them.

Notes : - IUJ has an MOU with one other unnamed company.

- Niigata Prefectural Government has signed a "Letter of Agreement for Collaboration."

Links to the Public Sector

Generous scholarship support is provided to IUJ students by the following valued partners to enhance the professional skills of people in emerging countries : The Asian Development Bank (ADB) / The International Monetary Fund (IMF)/ Japan International Cooperation Agency (JICA)/ Indonesian Government/ Sri Lankan Government/ Japanese Government (Monbukagakusho) Scholarship Program

Cooperation with universities and institutions in Japan and overseas

We have concluded agreements on collaborative cooperation with Nagaoka University of Technology, Juntendo University, and JICA. We have also been creating linkage programs with overseas-affiliated Indonesian, Mongolian, and Chinese universities.

Students dispatched by corporations

Since its opening, IUJ has received more than 900 employees and staff dispatched from over 170 companies and institutions. They have earned master's degrees from IUJ and are active in their professions all over the world.

Companies and organizations that send their employees to IUJ are, as of 2023, in alphabetical order :

AEON Co.,Ltd./ All Nippon Airways Co., Ltd./ Ajinomoto Co., Inc./ Daikin Industries,Ltd./ East Japan Railway Company/ Hiroshima Gas Co., Ltd./ Hitachi, Ltd./ Meiji Yasuda Life Insurance Company/ Mitsui Sumitomo Insurance Co., Ltd./ Mos Food Services, Inc./ Organization for Small & Medium Enterprises and Regional Innovation, JAPAN/ Panasonic, Corp./ Tohoku Electric Power Co., Inc./ Yasuda Real Estate Co., Ltd.

Scholarship foundations / Corporations in Japan

JERA / Mitsui & Co. / The Konosuke Matsushita Memorial Foundation(KMMF) / The Mitsubishi UFJ Trust Scholarship Foundation

Executive Development programs

In addition to regular programs (master's and doctoral courses), IUJ also utilizes its international environment (with English as the official language within the university), to provide various training programs to companies and institutions that see globalization as an opportunity for growth strategies. We also offer customized training as requested.

Summer Intensive English Program (IEP)	IUJ's Intensive English Program (IEP) provides intermediate-to advanced-level English training for students who intend to enter IUJ's graduate programs and for professional people who wish to immerse themselves in English in preparation for work assignments that involve substantial international English communication.
Global Leadership Program (GLP)	Corporations recognize that globalization in emerging markets is a major opportunity to be capitalized upon as part of their growth strategies. There is a strong need in these corporations for competent global managers who can lead international business deployment. IUJ's Global Leadership Program (GLP) aims to respond to this critical need to develop and train such global managers.

IUJ Alumni flourish globally!

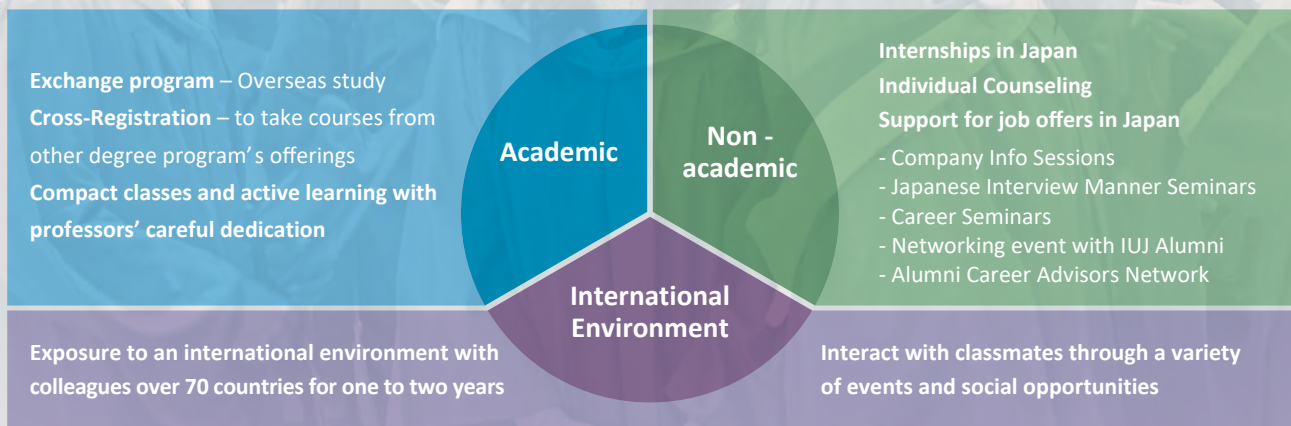

Pooja Yadav (Nepal)
Nissan Motor Corporation
(Japan)
MBA, Class of 2022

I'm working for Nissan Motor Corporation and am responsible for the development, maintenance, and utilization of databases for the investment management of new products.

As soon as I had enrolled in IUJ, I was motivated to gain a strong foundation in accounts and finance, to establish networks and connections, and to develop interpersonal and leadership skills. I have achieved them all through compact classes, the professors' dedication toward students, the multi-cultural environment at IUJ, as well as the opportunities for vivid experiences. Also, through my role as a Teaching Assistant, Tutor, Facilitator, IT Help Desk Support, and House Captain within my two years of study, IUJ gave me opportunities that I might not have acquired otherwise.

In my day-to-day work, I am using the Statistics and Econometrics knowledge along with the relationship-building skills I gained at IUJ to develop a positive association with people around me. My current goal is to have deeper insights into my job role and develop relevant skills and knowledge. Just as I did while at IUJ, I wish to continue learning and growing both personally, and professionally as it will keep me open to new experiences and challenges.

How you can cultivate yourself in IUJ

Where are IUJers Working?

Accenture Japan Ltd / KPMG Ignition Tokyo / Microsoft Japan Co., Ltd / The World Bank / UNICEF

A University Where the World Cooperates

The International University of Japan is a graduate school that welcomes approximately 200 new students each academic year. Although this is a relatively small number when compared to other universities, students from about 70 countries from all over the world gather on our Urasa campus in a spirit of cooperation.

Our university provides a “global space” within Japan, meaning that “students can learn about the world and learn about Japan” on our campus. In general, students live in dormitories on campus and English is used as the only language of instruction, enabling students to receive an in-depth graduate education in international relations and international management at a global standard. IUJ prides itself in that not only the faculty use English; the administrative staff, who assist students in a range of matters, are also proficient in English.

Many students come to IUJ with support from organizations such as JICA (Japan International Cooperation Agency), ADB (Asian Development Bank), and the IMF (International Monetary Fund). A number of students are also dispatched to study at IUJ from Japanese companies. In addition, many students from Japan and abroad have entered IUJ independently by taking advantage of our extensive scholarship system available to applicants.

We hope you choose to join us and study at IUJ to become a truly global leader.

IUJ President
Takeo Kikkawa

About IUJ

The International University of Japan (IUJ) was created in 1982, as Japan's first graduate-school-only university, by bold leaders with a unique vision representing businesses, governments, and world organizations.

IUJ equips students with interdisciplinary skills in politics, economics, and management, as well as historical and cultural perspectives to take on current global issues in their chosen profession.

Offering an English-only curriculum to students from 70 countries taught by a highly qualified faculty, IUJ boasts master's and doctoral degree in two graduate schools:

- GSIR - Graduate School of International Relations
- GSIM - Graduate School of International Management

With active interdisciplinary research initiatives and an interactive alumni network of more than 5,000 graduates from 143 countries and regions, IUJ is making effective use of our global outreach to link up world organizations, businesses, and governments both in and outside of Japan.

Campus Guide

See our website for more detail

To apply for a scholarship

1. Read the IUJ Scholarship Guidelines
2. In Phase 2 of the Online Application, you will find a Scholarship application to fill in.
3. Complete and submit the Scholarship application by the application deadline.
4. The Admissions Committee considers scholarship awards along with the Admissions decisions.

Scholarships

IUJ offers a variety of scholarship support to admitted students. Scholarship-to-student matches are made on a competitive basis and only at the time of admission. The allocations of scholarships are also based on the objectives of our various partner organizations, companies, and foundations. Scholarships can support admission fees, tuition, and/or monthly stipends depending on the award. For details of our scholarship programs, please refer to our website.
